

Eventing Rule Changes 2021

Special MER dispensation

The following dispensation will be allowed under the new rules for Eventing 2021 to accommodate the change in the Heights and MER's for the various levels of Eventing. This shall apply only to MER's that are still valid according to the Rules of Eventing 02.3.3.

If a MER/QR was achieved prior to 2021 then that MER/QR will qualify the athlete towards competing at the new level. This means they were established at that old level and therefore count towards the equivalent new level. Ev70 towards Ev85, Ev80 towards Ev95 and Ev90 towards CCN1*. in particular 1x MER at EV100 will qualify for CCN1*.

Should all the required MER's/QR's have been achieved prior to 2021 but no MER/QR achieved at the next old level then one more MER needs to be achieved at the lower new (+5) level. i.e if two MER's/QR's were achieved at EV80 and no MER/QR achieved at EV90 then one more MER needs to be achieved at EV85 to go up to EV95. This principle is to apply at all levels accordingly.
