## **RULES FOR EVENTING**

### **PREAMBLE**

*These National Rules for the Eventing Discipline are drawn up in the broadest possible terms so as to allow Organising Committees affiliated to EVENTING SOUTH AFRICA (ESA), and ESA itself, as much freedom as possible in the management of their shows and in the preparation of their schedules.*

*It is obvious that however complete the rules may be they can never cover every eventuality. If any matter cannot be resolved by interpreting the rules to the letter, the solution to be adopted should lie in the principle which follows as near as possible to the spirit of the official text, with particular emphasis being placed on the spirit of sportsmanship providing a sense of fair play to all.*

*In all equestrian sports the interests of the HORSE shall be considered paramount.*

### **EVENTING VISION STATEMENT**

Eventing constitutes the most complete combined equestrian Competition, demanding of the Athlete considerable experience in all branches of equitation and a precise knowledge of his Horse's ability, and of the Horse a degree of general competence, resulting from intelligent and progressive training.

The Cross Country Test constitutes the most exciting and challenging all-round test of riding ability and horsemanship where correct principles of training and riding are rewarded. This test focuses on the ability of Athletes and Horses to adapt to different and variable conditions of the Competition (weather, terrain, obstacles, footing, etc.) showing jumping skills, harmony, mutual confidence, and in general "good pictures".

This test requires by all involved special awareness and acceptance of a certain level of risk inherent to the particular challenging and exciting nature of the test.

Every effort must be made to ensure that, at each level, responsible Athletes are participating with progressively trained Horses in order not to be exposed to a higher risk than which is strictly inherent to the nature and level of the Competition.

# THE SAEF & ESA CODE OF CONDUCT FOR THE WELFARE OF THE HORSE

(The shortened version will be quoted in all Schedules)

*The SAEF & ESA requires all those involved in international equestrian sport to adhere to the SAEF & ESA Code of Conduct and to acknowledge and accept that at all times the welfare of the Horse must be paramount. Welfare of the Horse must never be subordinated to competitive or commercial influences. The following points must be particularly adhered to:*

## **1. General Welfare:**

### *a) Good Horse management*

*Stabling and feeding must be compatible with the best Horse management practices. Clean and good quality forage, feed and water must always be available.*

### *b) Training methods*

*Horses must only undergo training that matches their physical capabilities and level of maturity for their respective disciplines. They must not be subjected to methods which are abusive or cause fear.*

### *c) Farriery and tack*

*Foot care and shoeing must be of a high standard. Tack must be designed and fitted to avoid the risk of pain or injury.*

### *d) Transport*

*During transportation, Horses must be fully protected against injuries and other health risks. Vehicles must be safe, well ventilated, maintained to a high standard, disinfected regularly and driven by competent personnel. Competent handlers must always be available to manage the Horses.*

### *e) Transit*

*All journeys must be planned carefully, and Horses allowed regular rest periods with access to food and water in line with current FEI guidelines.*

## **2. Fitness to compete:**

### *a) Fitness and competence*

*Participation in Competition must be restricted to fit Horses and Athletes of proven competence. Horses must be allowed suitable rest period between training and Competitions; additionally rest periods should be allowed following travelling.*

### *b) Health status*

*No Horse deemed unfit to compete may compete or continue to compete; veterinary advice must be sought whenever there is any doubt.*

### *c) Doping and Medication*

*Any action or intent of doping and illicit use of medication constitutes a serious welfare issue and will not be tolerated. After any veterinary treatment, sufficient time must be allowed for full recovery before Competition.*

### *d) Surgical procedures*

*Any surgical procedures that threaten a competing Horse's welfare or the safety of other Horses and/or Athletes must not be allowed.*

### *e) Pregnant/recently foaled mares*

*Mares must not compete after their fourth month of pregnancy or with foal at foot.*

### *f) Misuse of aids*

*Abuse of a Horse using natural riding aids or artificial aids (e.g. whips, spurs, etc.) will not be tolerated*

### **3. Events must not prejudice Horse welfare:**

#### *a) Competition areas*

*Horses must be trained and compete on suitable and safe surfaces. All obstacles and Competition conditions must be designed with the safety of the Horse in mind.*

#### *b) Ground surfaces*

*All ground surfaces on which Horses walk, train or compete must be designed and maintained to reduce factors that could lead to injuries.*

#### *c) Extreme weather*

*Competitions must not take place in extreme weather conditions that may compromise welfare or safety of the Horse. Provision must be made for cooling conditions and equipment for Horses after competing.*

#### *d) Stabling at Events*

*Stables must be safe, hygienic, comfortable, well ventilated and of sufficient size for the type and disposition of the Horse. Washing-down areas and water must always be available.*

### **4. Humane treatment of Horses:**

#### *a) Veterinary treatment*

*Veterinary expertise must always be available at an Event. If a Horse is injured or exhausted during a Competition, the Athlete must stop competing and a veterinary evaluation must be performed.*

#### *b) Referral centres*

*Wherever necessary, the Horse should be collected by ambulance and transported to the nearest relevant treatment centre for further assessment and therapy. Injured Horses must be given full supportive treatment before being transported.*

#### *c) Competition injuries*

*The incidence of injuries sustained in Competition should be monitored. Ground surface conditions, frequency of Competitions and any other risk factors should be examined carefully to indicate ways to minimise injuries.*

#### *d) Euthanasia*

*If injuries are sufficiently severe a Horse may need to be euthanized by a veterinarian as soon as possible on humane grounds, with the sole aim of minimising suffering.*

#### *e) Retirement*

*Horses must be treated sympathetically and humanely when they retire from Competition.*

### **5. Education:**

*The SAEF & ESA urges all those involved in equestrian sport to attain the highest possible levels of education in areas of expertise relevant to the care and management of the Competition Horse. This Code of Conduct for the Welfare of the Horse may be modified from time to time and the views of all are welcomed. Particular attention will be paid to new research findings and the SAEF & ESA encourage further funding and support for welfare studies.*

### **01.5.0 DRAW FOR ORDER OF STARTING**

The Organising Committee of the Event shall draw the order of starting for each competition. If two or more horses ridden by the same Athlete are drawn within fifteen places of each other, then the order may be adjusted as far as it is practical. Such Athlete may, at the time of entry, nominate in which order they wish to ride their various horses. Failure to do this will result in the Athlete having to ride in the

order of the draw. This provision will not apply to Team Competitions where the team horse must always be ridden first. (See Rule 07.8.2)

The order of starting for all tests shall be the same as that drawn by the Organising Committee for the first test except that the order of starting for the Show Jumping Test, when it occurs after the Cross Country Test, will be in reverse order of cumulative penalties of the preceding tests. **SECTION 2**

**STANDARDS and QUALIFYING**

**02.1.0**

**STANDARDS**

02.1.1

The standards, or levels, of competition shall be known as:

Eventing 60	Ev 60
Eventing 70	Ev 70
<b>Eventing 80</b>	<b>EV80</b>
Eventing 90	EV90
Eventing 100	EV100
CNC One Star	CNC*
CCN One Star	CCN*
CNC Two Star	CNC**
CCN Two Star	CCN**
CNC Three Star	CNC***
CCN Three Star	CCN***

The parameters and dimensions applicable to each of these standards are set out in Appendix EV/A

**02.2.0 QUALIFYING**

**02.2.1**

Horses and Riders can compete at any Standard up to, and including, that for which they have qualified. In order to progress to the next Standard above that for which they are qualified, both Rider and Horse/Pony, are required to achieve the prescribed number of Qualifying Results (QRs) individually or combined. These requirements are set out in the following table and also see Appendix EV/J:

**QUALIFICATIONS ARE REQUIRED BY BOTH RIDER AND HORSE/PONY, INDIVIDUALLY OR COMBINED, TO COMPETE AT THE NEXT HIGHER STANDARD**

<b>HORSES</b>		
<b><i>Course Standard</i></b>	<b><i>ADULT &amp; JUNIOR CLASSES</i></b>	<b><i>PONY RIDER CLASSES</i></b>
Eventing 80, & below	None	None
Eventing 80 to Eventing 90	Achieve a minimum of two QRs at Eventing at 80 level	Achieve a minimum of two QRs at Eventing at 80 level
Eventing 90 to Eventing 100	Achieve a minimum of two QRs at Eventing at 90 level	Not permitted

For Minimum Eligibility Requirements at CNC/CCN & CIC/CCI Levels see Table at [Appendix EVJ](#)

## 02.3.0 QUALIFYING RESULTS (QRs)

A QR is as follows:

Eventing 80	- )	completing a Recognised Event
Eventing 90	- )	without incurring jumping penalties
Eventing 100	- )	in the Cross Country Test

CCN/CNC and CCI/CIC \*, \*\* & \*\*\* A Minimum Eligibility Requirement is achieved by completing an Event within minimum parameters of all round performance as follows:

- Dressage Test: not more than 45 penalties (55%)
- Cross Country Test: a clear round (0 penalties) at obstacles ;  
Not exceeding the optimum time by more than 75 seconds
- Show Jumping Test: not more than 16 penalties at obstacles.

### 02.3.1 Exemption

"Riders who have obtained an MER at CIC\*\*/CCI\*\* level, in the 5 years preceding the date of an event, are exempt from having to get QR's at EV80 and EV90 level, for their horses, for that Event."

### 02.3.2 Reverse Qualifications

A reverse qualification is the obligation for a Horse to show restored competence at a lower level (MER) after a number of unsuccessful attempts at a certain level. Reverse qualification only applies to the Horse.

A reverse qualification is triggered by two consecutive Cross Country eliminations or a total of three Cross Country eliminations within a 12 months rolling period of time in competition. For this purpose the relevant reasons of elimination on Cross Country would be:

- Three refusals at one obstacle
- 3 or 4 cumulative Refusals dependant on level
- Fall of Horse or Athlete
- Dangerous riding

In the case of a reverse qualification at certain level the Horse must obtain a Minimum Eligibility Requirement in a Competition at a lower level before being allowed to compete again at the original level (e.g. a Horse with 2 eliminations at Ev100 must obtain MER at Ev90 before going back to Ev100). If a reverse qualification is triggered by eliminations that occur at different levels, then the Horse must obtain an MER at the level below the highest level of Competition at which elimination occurred.

**02.3.3** With the approval of the National Eventing Council, in the case of CCN/CNC\*\* and above, and their own Provincial Eventing Council in respect of other classes, OCs may impose additional qualifications for horses and/or riders, which must be published in the schedule.

#### **02.3.4 Qualifying Period and Deadline**

"QR's for EV 90, EV 100, CNC\*, CNC\*\* and CNC\*\*\* must be obtained by the closing date of entries of the show, and in the Calendar year in question or in the preceding TWO (2) Calendar Years. Should athletes anticipate getting a QR, and wish to enter the higher grade, they must cross enter.

#### **02.3.5 Cross Entry Rule**

Cross Entries are permitted between a grade that a combination of horse and Athlete have qualified in, and the immediate grade above that, should the combination have achieved the necessary QR.

The cost of the cross entry is the full entry of both classes (including levies) ESA will refund the levy of the class not competed in.

#### **02.3.6 Certification of Qualification for Events**

In order to facilitate this certification, the ESA Office will keep on record for a period of 5 years, for each and every event the following documents:

Show Schedule

Official Programme with advertised Prize Money

Full Official Computerised Result Sheets with Prize Money

And the TD's Report which is available to all TDs for future reference. This Report is also available to the SHB/OC

All qualifying events must be identified, and any national or provincial events must be certified as of at least the equivalent standard of difficulty as the international star competition of the same level.

Should an event be declared by the Technical Delegate to be unsuitable for qualifying an announcement to this effect should be posted on the Official Notice Board at the event.

### **02.4.0 OFFICIALS**

02.4.1 Officials on the FEI, National and Provincial panels may officiate at all levels up to CNC\*.

02.4.2 Officials for CCN\* and CNC\*\* and above should be on the FEI or ESA National Panels.

Athletes with medical conditions that may be relevant in the case of a medical emergency are responsible, at every Event when riding, for wearing a medical data carrier\* from a system provider able to communicate information at least in English. Alternatively (and at the minimum) a medical armband of good quality can be used. Athletes who choose to wear an armband should download and fill the form available for this purpose on the ESA's website.

*Medical Information is also required to be filled in on the Rider's Profile when registering with ESA.*

Conditions that are relevant include recent head injury, serious past injuries/surgery, chronic health problems such as diabetes, long-term medications and allergies. If in doubt, the Athlete should discuss this with his/her own treating physician.

#### **04.1.2 Medical Fitness**

If there is any doubt with regard to fitness to compete of an Athlete the ESA Team, in consultation with the Official Medical Officer, may, at its own discretion, eliminate the Athlete and decide also about his ineligibility to take part in any other Competition at that Event.

This should display any official notices concerning any information which needs to be communicated to the riders. e. g. The notification of Cross Country Course distances and Time Allowed (Optimum Time); time and place of Athlete's Briefing, etc.

## **SECTION 6**      **GENERAL COMPETITION RULES**

### **06.1.0**      **EVENTS**

#### **06.1.1**      **RESTRICTIONS ON SCHOOLING THE HORSE**

At the event venue and after the official opening of the course for inspection, and for the duration of the event, it is forbidden under penalty of disqualification for anyone other than the Athlete who will ride the horse in the competition to school a horse.

At multi discipline shows (e.g. Pony Riders' and Junior's Championships) this rule will only apply to Athletes on the day of their Eventing Dressage Test until after the completion of the Show Jumping Test.

A groom, while mounted, is not permitted to school the horse but only to hack it, exercise it or ride from one place to another. A groom may also work the horse in hand or on the lunge.

Under penalty of disqualification, riding close to cross country obstacles, or riding in the Dressage or Show Jumping Arenas prior to the actual competition is forbidden, unless specifically authorised by the Ground Jury or the Technical Delegate.

#### **06.1.2**      **INTERRUPTIONS**

The timetable may be interrupted due to dangerous conditions. If necessary the start of any test may be brought forward, postponed or cancelled. The decision to interrupt or cancel a test will be made by the ESA Team Technical Delegate or President of the Ground Jury after consultation with other members of the Ground Jury and the Technical Delegate, if possible. In the case of an interruption the event will be resumed as soon as possible at the point of the interruption. Every affected Athlete must receive sufficient warning before the resumption of the competition.

### **06.2.0**      **DRESSAGE TEST**

#### **06.2.1**      **OBJECT AND GENERAL DESCRIPTION**

The object of Dressage is the harmonious development of the physique and ability of the horse. As a result it makes the horse calm, supple, loose and flexible, but also confident, attentive and keen, thus achieving perfect understanding with his rider.

These qualities are revealed by:

The freedom and regularity of the paces.

The harmony, lightness and ease of the movements.

The lightness of the forehand and the engagement of the hindquarters, originating in a lively impulsion.

The acceptance of the bridle, with submissiveness throughout and without any tenseness or resistance.

**06.2.2** The Dressage Test shall be conducted and judged in accordance with the National Rules for Dressage - except as modified below.

**06.2.3** **CALCULATION OF SCORES**

**06.2.3.1** The good marks from 0 to 10 awarded by each judge to an Athlete for each numbered movement of the Dressage Test, together with the collective marks, are added together, deducting any penalties for error of course or test.

**06.2.3.2** Half Marks are allowed

**06.2.3.3** For each judge the percentage of good marks obtained is then calculated. This percentage is obtained by dividing the total of good marks of the judge (minus any error of course or test) by the maximum possible good marks obtainable, multiplying by 100 and rounding the result to two decimal digits. This value is shown as the individual mark for that judge.

**06.2.3.4** The average percentage is obtained by adding together the percentages for each judge and dividing by the number of judges, always rounding the result to two decimal digits.

**06.2.3.5** In order to convert the average into penalty points the average percentage of the Athlete must be subtracted from 100. The resulting figure will be rounded to one decimal digit. The result is the score for the test in penalty points.

**06.2.4** Tests other than those contained in the “ESA Eventing Official Dressage Tests” Book and FEI Rules for Eventing may be used if approved by the Provincial or National Eventing Committee, as applicable.

**06.2.5** **Inspection of Saddlery**

The checking of the bridle and the bit must be done with the greatest caution. If the Athlete so requests the bridle and the bit and Ear Hood may be checked immediately after the test has been completed.

However, should the bridle, the bit or Ear Hood in such a case be found to be forbidden, the Athlete shall be eliminated.

**06.2.6** In the case of elimination after the start of the Dressage Test an Athlete may continue his performance to the end of the test. The marks will be awarded in the normal way. He will be penalised by the affect on the execution of the movement and in the collective marks.

**06.2.7 Arenas**

The Technical Delegate may, after consultation with the Dressage Judge(s), in circumstances where the arena surround is of a flimsy or insubstantial construction, decide that it shall be treated as "not completely enclosed".

**06.2.8 Calling of Tests**

In all competitions 90cm & below, Athletes will have the option of having the Test called unless stipulated to the contrary in the schedule.

No Callers will be permitted for classes at 1m, CCN/CNC One, Two and Three Stars.

**06.2.9 Position of Judges**

When there are three judges, two of them must be placed along the short side, one at C and the other at M or H. The third judge shall be at either E or B. The three positions shall be either C, H, B or C, M, E. When there are two judges they shall be positioned at C and either B or E.

**06.3.0 CROSS COUNTRY TEST**

**OBJECT AND GENERAL DESCRIPTION**

This test is to prove the speed, endurance and jumping ability of the true cross country horse when it is well-trained and brought to the peak of condition. At the same time it demonstrates the Athlete's knowledge of pace and the use of his horse across country.

**06.3.1 IDENTIFICATION**

Two identification numbers, one worn on the chest and one on the back shall be provided to each rider by the Organising Committee and worn during the Cross-Country Test. (Bridle numbers must be worn for the Dressage phase and Show Jumping phase).

**06.3.2 OBSTACLES**

An obstacle is considered as such only if its extremities are marked by a Red and White flag and is numbered. Each obstacle is considered as a separate entity and judged as such.

### **06.3.3 MULTIPLE OBSTACLES AND OPTIONS – see Appendix EV/A for diagrams**

#### **06.3.3.1 Obstacles composed of several elements.**

If two or more jumping efforts, sited closely together, are designed as one integral test they will be designated as "elements" of a single numbered obstacle. Each element will be marked with a different letter (A, B, C etc) and must be negotiated in the correct order.

When two or more jumping efforts are sited so closely together that after a refusal, run-out or fall it would be unreasonably difficult to attempt to negotiate the second or subsequent effort without retaking one or more earlier efforts, those jumping efforts must be designated as one numbered obstacle and lettered accordingly.

#### **06.3.3.2 Obstacles with Options.**

Where an obstacle may be jumped in one effort but has options involving two or more efforts, each of these options must be lettered as an element.

#### **06.3.3.3 Separate, Alternative or Optional Fences - Black Flag Options**

Alternative obstacles or elements may be flagged separately and must be identified by the same number/letter as on the direct route. In this case both sets of flags must be marked with a black line, or other substantial black portion. Such "black flag" alternatives are to be judged as separate obstacles or elements, only one of which has to be jumped.

An Athlete is permitted to change without penalty from one black flagged line to another provided that he has not presented his horse at the next element of the original line.

Where an obstacle may be jumped in one effort but has options involving two or more efforts, then each of these options must be lettered as an element.

In a combination, the ESA Team, may allow Athletes to circle without penalty, or to circle another element without penalty, at a black flag lettered alternative long route if this improves the flow of the course. This does not apply to, nor change the method of judging and scoring for the Athlete on the direct route through the elements of the obstacle.

#### **06.3.4 NEGOTIATION OF A MULTIPLE OBSTACLE**

Should an Athlete have a disobedience at the second or following elements he may either negotiate the element his horse has just refused or return and jump all or any of the prior elements, but all his attempts will be counted, and **more than** two (2) refusals at the obstacle as a whole will entail elimination.

The elements of a multiple obstacle must be jumped in the correct order, without deviating by going around a subsequent element, or around an element already jumped, in order to facilitate the approach to the next element.

#### **06.3.5 OVERTAKING**

An Athlete who is about to be overtaken by a following Athlete must immediately give way to the following Athlete. When the Athlete is approaching an obstacle and about to be overtaken he must follow the directions of the Officials.

Any Athlete overtaking another must do so only at a safe and suitable place.

The penalty for wilful obstruction of an overtaking Athlete, failure to follow the instructions of officials, or causing danger to another Athlete, is elimination at the discretion of the ESA Team.

Any Athlete disregarding these rules may, at the discretion of the ESA Team, be eliminated.

The time during which the Athlete is held up by officials will be recorded and deducted from the time taken by the Athlete to complete the course.

##### **(a) ATHLETES IN DIFFICULTY**

If, in attempting to negotiate an obstacle, a horse should be trapped in such a way that it is unable to proceed without assistance or is liable to injure itself, the Athlete will be instructed by the Fence Judge to dismount and will be eliminated.

The Fence Judge will decide if parts of the obstacle need to be dismantled or if any other assistance needs to be given to extricate the horse.

## **(b) STOPPING ATHLETES**

If any part of an obstacle is obstructed by an Athlete in difficulty, or has been dismantled or is in need of repair, or in any other similar circumstances, approaching Athletes must be halted.

The time during which the Athlete was stopped, from the moment when he passed the designated timing point until he passed the same point again, after being given the order to restart, will be recorded. It will be deducted from the total time taken by the Athlete to complete the course. It is clearly intended that the time shall be taken as the Athlete gallops past the designated timing point, both stopping and restarting, not after he halts nor after a start from the halt.

### **06.3.6 FENCE JUDGES**

Fence Judges must be appointed for all obstacles on the course, but one Fence Judge may take charge of more than one obstacle, provided that they are all clearly visible to him and he is in a position to maintain adequate control.

### **06.3.7 MARKING OF COURSE**

(a) Red and white boundary flags are used to mark the start and finish, to define the limits of obstacles and to indicate compulsory sections of the course. They are placed in such a way that an Athlete must leave a red flag on his right and a white flag on his left. Such red and white flags must be respected under penalty of elimination, wherever they may occur on the course and whether singly or in pairs.

(b) It is recommended that in addition to red and white boundary flags the starting and finishing lines shall also be marked with distinct signs.  
Obstacles shall be numbered and/or lettered. Different coloured numbers shall be used for different competitions.

Alternative/Optional Fences shall be identified and numbered in accordance with Rule 06.3.3.3

(c) It is recommended that yellow directional markers be used (if there is no obvious path) to show the general direction to be taken and to help the Athlete find his way. Passing close to them is not obligatory.

(d) It is recommended that stopping points, if used, be marked by a peg painted in a vivid colour or stain.

### **06.3.8 ACCESS TO COURSE**

As from closing date of entries, no competing horses may be ridden in the vicinity of the Cross Country obstacles, nor enter the Dressage or Show Jumping arenas until called upon to do so under penalty of elimination. A Mounted Course Walk for 60/70 classes, in groups of 3 or more, may be permitted at the discretion of the Show Holding Body.

The Cross Country Course should normally be open for inspection by Athletes on foot (i.e. all obstacles, numbers and flags exactly in position) by twelve noon on the day preceding the first test of the Event.

### **06.3.9 PLAN OF COURSE**

A plan of the courses **must** be available at the Cross-Country venue, and displayed on the Official Notice Board, at the time at which the Cross-Country Course is open for inspection. This shall include:

- (a) The length of courses.
- (b) Numbering of obstacles.
- (c) Any compulsory boundary flags other than numbered obstacles.

This plan shall be the only official plan of the courses.

### **06.3.10 MODIFICATIONS**

After the course has been opened for inspection by Athletes, alterations may only be made when exceptional circumstances (such as heavy rain or hot weather) make the course unsuitable or dangerous.

The decision will be made by the Technical Delegate in consultation with the Course Designer. The Technical Delegate is authorized to reduce the severity of, or to bypass such obstacles, or to reduce the distances or speeds demanded. Should changes be made after the Athletes' Briefing then the Chefs d'Equipe and every Athlete must be officially and personally informed of the alteration before the start of the test concerned, and a notice to that effect will be posted on the Official Notice Board.

### **06.3.11 TIME**

#### **a) Time Allowed (Optimum Time)**

The Time Allowed (Optimum Time) is calculated by dividing the measured distance of the course by the chosen speed in metres per minute. Completing the test in a time 45 seconds or more under the Optimum time will incur penalties. Athletes exceeding the time allowed (optimum time) will be penalised in accordance with Rule 06.3.15.

b) **Time Limit**

The Time Limit shall be twice the time allowed (optimum time). Any Athlete exceeding the time limit shall be eliminated.

- c) Time is counted from the instant the starter gives the signal to start, until the instant when ridden horse's nose passes through the finishing flags. This is counted in whole seconds, part of a second counting as the next whole second; that is to say 30, 25 seconds is recorded as 31 seconds. However the exact time taken, including fractions, must be recorded. When an electronic timer is used for the start of any phase, the starter must cut the beam with his hand.
- d) If the horse fails to cross the starting line within sixty seconds of the starter's signal, the Athlete is eliminated.
- e) An Athlete who starts, before the signal to start has been given, will have his time recorded from the moment he crosses the start line. An Athlete who deliberately starts before being instructed to do so may be eliminated at the discretion of the ESA Team.
- f) Periods during which an Athlete has been held up by a fence judge or official will be deducted from the above time to give his corrected time for completing the course.

g) **Notice**

A notice displaying the distances and time allowed (optimum time) for each course will be posted on the Official Notice Board as soon as possible after the start of the Event i.e. from the time that the Course is open for inspection.

### **06.3.12 METHOD OF STARTING**

- a) Athletes at the start should be under the control of a Starter. Each Athlete should be given reasonable warning before the time he is due to start, but it is the Athlete's responsibility to ensure that he reports to the Starter at the correct time.
- b) In order to simplify the task of the starter, it is recommended that an enclosure approximately five meters by five meters will be built at the start of the Cross Country, with an open front through which Horses will start and a gap in one or both sides from which the Horses will enter. Need not be a permanent fixture – could be built with jump uprights and poles.

Each Athlete must start from within the enclosure and is at liberty to move around and through the enclosure as he pleases.

An attendant may lead the Horse into the enclosure and may hold the Horse until the signal to start is given. From that instant, the Athlete is considered to be on the course and no further assistance may be given.

- c) The starter will count down from five before the signal to start. If it is apparent that the horse is behaving in such a way so as to give it an unfair advantage at the start he should abandon the count down, and commence again at his discretion.

### **06.3.13 SCORING**

The penalties incurred for faults at the obstacles and for exceeding the Time Allowed are added together to give the Athlete's penalty score for the Cross-Country Test.

### **06.3.14 DEFINITION OF A FAULT**

#### **a) Faults (Refusals, Run Outs, Circles or Falls)**

Faults will be penalised only, if in the opinion of the responsible judge, they are connected with the negotiation or attempted negotiation of one of the numbered obstacles.

#### **b) Refusal**

At obstacles or elements with height exceeding 20 cm; (for CCN\*/CNC\* and above exceeding 30 cm) a horse is considered to have refused if it comes to a stop before completing the obstacle by passing through all the boundary flags defining the obstacle.

A horse is judged to have stopped when all forward motion ceases, even though it may be momentarily.

It is considered a refusal even if the stop is followed immediately by a standing jump, or by the horse stepping sideways and then jumping the obstacle or element.

If after a refusal, as set out above, the Athlete increases or changes his effort without success, or if the horse is re-presented at the obstacle after stepping back and stops and steps back again, this is a second refusal; and so on.

There will be an exception in the case of a drop, or other obstacle, which has no portion of the fence raised above 20 cm, or in the case of CCN/CNC: 30 cm, when such a standing jump will not be penalised.

### c) Run-out

A Horse is considered to have run out if, having been presented at an element or obstacle on the course, it avoids it in such a way that either the head, neck or either shoulder of the Horse fail to pass between the extremities of the element or obstacle as flagged.

In case the Horse has clearly attempted to jump the element or obstacle and may have missed a flag, the athlete can choose:

- i. To represent (accepting automatically 20 penalties), **or**
- ii. To continue on course incurring 50 penalties (**no elimination**) in case the element or obstacle was not correctly cleared.

**Note:** "A Horse will be considered to have cleared the fence when head, neck and both shoulders of the Horse pass between the extremities of the element or obstacles as flagged"

### d) Circle

At an obstacle composed of several elements (A, B, C, etc.) a horse will be penalised if it passes around any element, or circles between elements, at any time between first being presented at the obstacle and finally completing the last element. (See Appendix EV/A 26 & 28 for possible exception at black flagged alternatives.)

### e) Falls

A rider is considered to have fallen when he is separated from his horse which has not fallen, in such a way as to necessitate remounting or vaulting into the saddle.

A horse is considered to have fallen when at the same time both its shoulder and quarters have touched either the ground or the obstacle and the ground, or when it is trapped in a fence in such a way that it is unable to proceed without assistance, or is liable to injure itself and the Rider must then dismount.

A fall of horse or rider on course will result in Elimination. However Riders may voluntarily dismount without incurring elimination as above, to check on horse, adjust saddlery or equipment.

### f) Multiple Obstacles

At a multiple obstacle, an Athlete may refuse, run-out and/or circle only twice in all without incurring elimination. If he refuses, runs-out or circles at any element, he is permitted to retake any elements already jumped, although he is liable to be penalised for any fault even if he has previously jumped the element successfully. If after a refusal, run-out or circle, he wishes to pass through flags in the wrong direction in order to retake an element, he may do so without penalty unless obviously dangerous to do so.

**g) Omission of Fence or Boundary Flag**

Every numbered or lettered fence must be jumped in the correct sequence, passing to the left of all red boundary flags and to the right of all white ones.

**06.3.15 PENALTIES AND ELIMINATIONS**

First Refusal, run-out or circle of Horse at obstacle	20 Penalties
Second refusal, run-out or circle of Horse at same obstacle	40 penalties
Third refusal, run-out or circle of Horse at same obstacle	Elimination
Fourth cumulative refusal – Ev 100 and below	Elimination
Third cumulative refusal – CNC/CCN & CIC/CCI * & above	Elimination
Fall of Horse and or Rider	Elimination
Trapped Horse	Elimination
Error of course not rectified	Elimination
After more than 2 minutes of continuous disobedience	Elimination

Exceeding the Time Limit (which is twice the optimum time	Elimination
For every commenced second or part thereof in excess of 45secs <u>under</u> the Optimum Time.	1 penalty
For Trotting or walking after the third to last jump	20 Penalties

**06.3.16 TRAPPED HORSE**

A Horse is trapped when it cannot proceed without assistance or is at risk of injury. If a horse becomes trapped while negotiating an obstacle Officials will determine what is required to extricate it. The Athlete of such a horse must dismount as soon as possible and obey the instructions of Officials. The Athlete will be eliminated.

### 06.3.17 **OVERTAKING**

- Any Athlete who is about to be overtaken must clear the way as soon as possible.
- When an Athlete is about to be overtaken at or approaching an obstacle he must obey the instructions of officials.
- Any Athlete wanting to overtake another must only do so at a safe and suitable place and, if at an obstacle, he may only jump it in such a way that will cause neither inconvenience nor danger to the other.

### 06.3.18 **STOPPING AN ATHLETE**

If for any reason it becomes necessary for an Athlete to be stopped on the course, Cross Country Control will give instructions to the relevant Fence Judge. If possible Athletes will be stopped at stopping Points, but this may not always be possible and they must be prepared to stop as and when instructed.

- The Athlete will be stopped by Officials who should be clearly visible in a Stewards Vest. The signal should be assisted by the clearly shouted command 'STOP'.
- An Athlete who has been stopped by an official on the course, will have his time noted as he passes the stopping point and again at the same point on being re-started: the difference 'the held time' being deducted from his recorded time

### 06.3.19 **COMPULSORY ELIMINATION**

Elimination must be applied in the following cases:

- (a) Lameness or exhaustion of a horse
- (b) Abuse of horse which shall include:
  - (i) Rapping.
  - (ii) Riding an exhausted or obviously lame horse.
  - (iii) Excessive pressing of a tired horse.
  - (iv) Excessive use of the whip, spurs or bit.
  - (v) Abuse of Horse.
- (c) Jumping or attempting to jump an obstacle in the wrong direction, except as allowed at Multiple Obstacles in Rule 06.3.14.f)

### 06.3.20 **DISCRETIONARY ELIMINATION**

Elimination is left to the discretion of the ESA Team in the following cases:

- (a) Jumping or attempting to jump any obstacle without headgear, or with an unfastened retention harness.

- (b) Wilful obstruction of an overtaking Athlete, or failing to follow the instructions of the officials while being overtaken.
- (c) Causing danger to another Athlete while overtaking that Athlete.
- (d) Failure to stop when signalled.
- (e) Unauthorised assistance
- (f) Deliberately starting before the signal to start.
- (g) Dangerous Riding
- (h) Competing with incorrect dress
- (i) Competing with improper saddlery, whips or spurs.

### **06.3.21 UNAUTHORISED ASSISTANCE**

Any intervention by a third party, whether solicited or not, with the intention of facilitating the task of the Athlete or of helping his horse, is considered unauthorised assistance and the Athlete is liable to be eliminated.

#### ***In particular the following are forbidden:***

- intentionally to take a lead from another Athlete
- to be followed, preceded or accompanied, on any part of the course, by any vehicle, bicycle, pedestrian, or horseman not in the competition
- to post other persons at certain points to call directions or make signals in passing
- to have someone at an obstacle to encourage the horse by any means whatsoever
- to tamper with the obstacles or any part of the course, including, for instance, flags, indicators, decorations, markers, notices, ropes, trees, branches, wire or fences, whether temporary or permanent
- The use of any electronic receiving apparatus by Athletes while mounted during the competition is strictly forbidden.
- Officials or spectators who draw the attention of an Athlete to a deviation from the course are giving unauthorised assistance which may result in the elimination of the Athlete.
- Any case of unauthorised assistance will be decided by the ESA Team

#### **Exceptions**

If an Athlete voluntarily dismounts he may be assisted to adjust his saddlery, to remount or be handed any part of his saddlery or equipment while he is dismounted or after he has remounted.

Whip, headgear or spectacles may be handed to an Athlete without dismounting.

During his Cross Country round an Athlete may receive clarification of jumping penalties from the fence Judge, e.g. after having knocked a flag at the corner of an obstacle

In the case where the horse has clearly attempted to jump the element or obstacle, and may have missed a flag, the Athlete may choose:

- a) To re-present (accepting automatically 20 penalties, or
- b) To continue on course incurring 50 penalties (No elimination) in case the element or obstacle was not correctly cleared.

### **06.3.22 ELIMINATION AND RETIRING**

An Athlete shall not jump or attempt to jump any fences after being eliminated or retiring. It is compulsory that the Athlete reports back to the Starters or Steward in the Cool Down Box, if used. Fallers must be checked out by the Medics/Vet.

Athletes disregarding this rule will be warned or fined. The sum shall be decided by the National or Provincial Eventing Council, as the case may be, and shall be paid to the Organising Committee. Persistent offenders will be subject to disciplinary proceedings.

### **06.3.23 DANGEROUS RIDING**

- (a) Any rider who affects the safety of any horse, rider or third party will be considered to have acted dangerously and will be sanctioned with either a verbal warning, 25 penalties or elimination &/or a Yellow Card
- (b) Officials must report such actions as soon as possible to the ESA Team supported where possible by a statement from one or more witnesses. The ESA Team must decide if there is a case to answer.
- (c) If the ESA Team observes such actions they have the right and duty to sanction the Athlete forthwith in accordance with paragraph (a) above, on their own authority.
- (c) Any Athlete who, after a stop, urges his horse to jump from a standstill, except in the case of a drop fence with no raised portion (06.3.14b Refusals) shall be deemed to have acted dangerously.

#### **06.3.24 HORSE WELFARE DURING THE COMPETITION**

At any time during the Competition, the ESA Team, in consultation with the Veterinary Delegate, has the right and the duty to eliminate any Horse which, in his opinion, is lame or is unfit to continue.

#### **06.4.0 SHOWJUMPING TEST**

##### ***OBJECT AND GENERAL DESCRIPTION***

The test is similar to an ordinary Show Jumping competition but without any attempt to find a “winner” of this test on its own. It’s main objective is to prove that the horse and rider are well trained in the specialist discipline of Show Jumping.

The nature of the course, its length, the speed demanded and the dimensions of the obstacles depend on the degree of difficulty of the whole competition.

##### **06.4.1 COURSE**

The Show Jumping Course Designer and the Technical Delegate are to liaise regarding the standard of the Show Jumping Course to be set. The final decision shall rest in the hands of the Technical Delegate. Distance and Speed shall conform to the limits shown in Appendix EV/A.

The course will be standard Show Jumping. There will be approximately 8-12 numbered obstacles including at least one double. The dimensions of the obstacles shall not exceed the limits laid down in Appendix EV/A.

Closed combinations are not permitted. A water jump is not permitted but a water ditch, or water tray, with rails over is allowed.

##### **06.4.2 THE TEST**

The Show Jumping Test consists of one round of the course judged under Table A of the Show Jumping rules. There is no jump-off. Time shall be recorded. The order of jumping should be in reverse order of penalties of the previous tests. When the Show Jumping Test precedes the Cross Country test the Athletes will ride in programme order.

##### **06.4.3 JUDGING**

Except for the provisions included in 06.4.4 or 06.4.5 below the Show Jumping Test shall be conducted and judged in accordance with Table A of the National Rules for Show Jumping.

First disobedience plus knocking down an obstacle	4 penalties plus 6 secs.

##### **Time Penalties**

For every commenced period of one second in excess of time allowed	1 penalty
--------------------------------------------------------------------	-----------

06.4.5.1 When there is a refusal, run out in the second or third element of a combination the Athlete must retake all the elements under the penalty of elimination.

#### 06.4.5.2 **Knock Down with Disobedience**

- (a) If, as a result of a disobedience, a Athlete displaces or knocks down an obstacle or the flag defining the limits of an obstacle, the bell is rung. The clock is stopped until the obstacle has been rebuilt or the flag replaced. The Athlete will be penalised for a refusal and 6 seconds will be added to the time taken by the Athlete to complete his test.
- (b) If a Athlete displaces or knocks down one of the elements of a combination or a flag defining the limits of an element and refuses or runs out at one of the subsequent elements, the bell is rung. The clock will be stopped as for an obstacle knocked down following a disobedience. The penalties for the disobedience and the addition of 6 seconds must be applied.

#### 06.4.5.3. **FALL**

### Red route:

20 penalties because it passes around the back of element B (crosses the entire projection of the back of element B)

## **APPENDIX EV/A (cont)**

### **1 GENERAL**

The Technical Delegate will be responsible for inspecting and approving the Cross Country and Show Jumping Courses before they are shown to the riders. He is authorised to insist on alterations if, in his opinion, the courses are not in the spirit of the standards and dimensions laid down in this Appendix or are unsuitable for the level of horses expected to take part, or in the interests of safety.

### **2 CROSS COUNTRY COURSE**

#### **2.1 TABLE of Distances and Dimensions**

Within the limits of the Table, the CD & TD may adjust in either direction, dependant on the terrain. The number of efforts should be in proportion to the length of the course.

As a guideline for Short format:

3 Star Level = max 1 effort per every commenced 110m.

2 Star Level = max 105m

1 Star Level = max 100m

The table gives the distances and maximum dimensions for obstacles in each standard or level. This does not mean that all obstacles must be of the maximum dimensions, nor of uniform height and spread throughout the entirety of each individual obstacle.

#### **2.2 DIMENSIONS**

- a) The fixed and solid part of any obstacle may not exceed the maximum dimensions at any of the points at which an Athlete might reasonably attempt to negotiate the obstacle.
- b) The height of an obstacle is measured from the point where, in the opinion of the Technical Delegate, the majority of horses would take off. The spread of the obstacle is measured from the outside of the rails or other material making up the obstacle.

- c) When the height of an obstacle cannot be clearly defined (natural hedge or brush fence):
  - i) the "Fixed height" is measured to the fixed and solid part of the obstacle through which a horse cannot pass with impunity.
  - ii) the "Overall height" is measured overall and includes that portion of the obstacle through which a horse can pass with impunity.
- d) The drop on the landing side of an obstacle is measured from the highest part of the obstacle to the point where the average horse would land.

## **2.3 WATER**

### **a) Depth**

At obstacles involving water crossings (ford, lake or wide river) the depth of water, from the entrance to the exit, must not exceed 35cm for 3\*, 30cm 1 & 2\*, 20cm 1m & below.

In exceptional circumstances, for example where a natural watercourse is affected by rain and the course cannot be used without crossing such a watercourse, then the Technical Delegate, in consultation with the Ground Jury, may allow such a crossing. Before doing so the Technical Delegate and the CD & Event Judge must satisfy themselves that such a crossing is safe in every respect.

### **b) Length**

Where a water crossing has steep or sheer edges the distance from entry to exit must not be less than 6 metres, in order to discourage a horse from attempting to jump over it.

This does not apply to a water "splash" with gently shelving edges - but this should also be long enough to discourage horses from attempting to jump right across.

### c) **Bottom**

In all water crossings the bottom should be firm and consistent.

## **2.4 DROPS**

The number of obstacles which incorporate a maximum drop

Eventing 100	)	1,40 metres
CNC*	)	1,60 metres
CNC**	)	1,80 metres
CNC***	)	2,00 metres

is limited to two. The total number of drops may not be excessive.

## **2.6 OVERHEAD OBSTRUCTIONS**

Any roof, or other fixed and solid barrier over an obstacle may not be less than 3.40 metres above the ground level.

## **2.7 NUMBER OF JUMPING EFFORTS**

The total number of jumping efforts shall be related to the length of the course and the severity of the terrain. To arrive at the number of jumping efforts, the efforts on the route taken by the average horse shall be totalled.

## **2.8 SEPARATE, ALTERNATIVE or OPTIONAL FENCES - see Rule 06.3.3.3**

## **2.9 SPEEDS**

In the case of exceptional conditions of whatever description the Technical Delegate may reduce the speeds shown.

## **3 SHOW JUMPING COURSE - Distance and Speed**

Within the limits shown in Appendix EV/A the Course Designer is free to plan a track suitable to the level of the competition. In exceptional circumstances it is permissible, with the approval of the Technical Delegate and Ground Jury to add up to 10% to the maximum permitted distance.
