## Code of Conduct for the Welfare of the Horse

The Federation Equestre Internationale (FEI) expects all those in International equestrian sport to adhere to the FEI's code of Conduct and to acknowledge and accept that at all times the welfare of the horse must be paramount and must never be subordinate to competitive or commercial influences.

1. At all stages of the preparation and training of competition horses. Welfare must take precedence over all other demands. This includes good horse management, training methods, farriery and tack and transportation.
2. Horses and athletes must be fit, competent and in good health before they are allowed to compete. This encompasses medication use, surgical procedures that threaten the welfare or safety, pregnancy in mares and the misuse of aids.
3. Events must not prejudice horse welfare. This involves paying careful attention to competition areas, ground surfaces, weather conditions, stabling and fitness of the horse for onwards travel after the event.
4. Every effort must be made to ensure that horses receive proper attention after they have competed and that they are treated humanely when their competition is over. This covers proper veterinary care, competition injuries, euthanasia and retirement.
5. The FEI urges all involved with the sport to attain the highest levels of education in their areas of expertise relevant to the care and management of the Competition Horses
